## Construction Commences on the Upcoming 83-unit Seminola Elderly Housing Development

Published December 13, 2019

On December 13, 2019, the City of Hialeah and Hialeah Housing Authority held a ceremony for the commencement of the construction of 83 new units of affordable housing in the Seminola area of Hialeah, Florida.

City officials and representatives from the Hialeah Housing Authority were in attendance for the ceremony to celebrate the imminent fruition of the Seminola Elderly Housing Development, after over 10 years of planning.

The construction of the building will provide the availability of new units for elderly residents in need, a priority of the City of Hialeah and Hialeah Housing Authority with consideration for the city's large elderly population.

The construction of the Seminola Elderly Housing Development is being made possible with the support of United States Department of Housing and Urban Development (HUD), through awarded grant funds through the HOME Investment Partnership (HOME) Program.
