for
Evaluation Consulting for City's

It is understood by the Partners that should the proposal be funded and a grant contract is issued to City of Hialeah Education & Community Services Department by The Children's Trust that an Agreement between Oneyda Paneque, Ed.D., and City of Hialeah Education & Community Services Department will be executed with the same terms as negotiated in the contract with The Children's Trust.

The Partners understand that this Memorandum of Understanding does not contain a promise for payment of services in the preparation of the grant proposal. If The Children's Trust does not fund said proposal, or if The Trust funds the proposal in a reduced amount, a new Memorandum of Understanding and scope of services will be negotiated between the Partners.

Scope of work

The Evaluation Consultant will provide assistance and work closely with the ECS Director and the Inclusion/Evaluator Specialist to ensure the effective development and implementation of the City's Out-of-School Program Evaluation Plan.

The Evaluation Consultant shall assist in the evaluation process of the Program administered by the City of Hialeah funded by The Children's Trust. The Program offers out-of-school services in after-school programs and summer camps serving participants in grades K-8 at 11 afterschool sites and five summer camp sites. Approximately 450 children will attend and after-school program and 350 will attend the summer camp. As the City's program is large in size, complex in service delivery, and broad in program scope, an outside evaluation consultant has been key to not only basic program evaluation, but in assisting administrative staff in using evaluation data to inform quality goals and improvements. The City's Evaluation Plan includes both formative and summative data analysis to assist in program planning and implementation as well as the assessment of the Program goals and outcomes; the volume of evaluation work requires additional expertise as well as seasonal contracted assistance in its completion.

Method of evaluation

The evaluation of the Program shall encompass both quantitative and qualitative evaluation methods. Quantitative data from program attendance records, monthly calendars, log of activities implemented, and pre/post scores on assessment instruments will be collected and analyzed. Qualitative data from interviews conducted with participants and staff on program implementation and effectiveness as well as consumer satisfaction will be collected and analyzed. The triangulation of these data will be used to evaluate the attainment of the goals and outcomes of the Program.

Deliverables schedule

The Evaluation Consultant will assist the City's Evaluation Specialist as needed in providing information for the quarterly reports as requested by the Children's Trust on the Program implementation and progress. The Evaluation Consultant will provide content on Project implementation and progress for quarterly reports to the City's Evaluation Specialist no less than 5 days in advance of the Children's Trust due dates (attached). Within thirty (30) calendar days after the due date of the Trust final (summer) report, a final evaluation report will be submitted. When evaluation consulting services are needed, the City will request assistance in writing in a scope of work format, allowing each party to agree in writing to specific tasks and deliverables, and including an estimate for the amount of time spent to complete all work up to and including specified deliverables.

Roles and responsibilities

The Evaluation Consultant shall provide *assistance and training with the pre/post assessment instruments, data collection, data analysis, and report preparation as requested* by the Specialist or key program administrative staff. The Evaluation Consultant will *lend expertise in how to evaluate, how to understand results, and how to use baselines and results to improve quality of programming*, including via vehicles such as the SACERS site evaluation tool, or through staff training. The Evaluation Consultant will assist the staff with data analysis and reporting as it relates to the *required evaluation components* of this Children's Trust program.

Programmatic testing using accepted tools and data collection responsibilities will be that of the Inclusion/Evaluation Specialist. The City will use the on-line system for attendance, demographics, and other data required by The Children's Trust. The Specialist will supervise staff whose primary responsibility will be data entry and record keeping.

The Education and Community Services Special Programs Director will schedule deliverables as well as dates by when the sites will have completed turning in all data to the ECS office. The Evaluation Consultant may be contracted to provide assistance with the ECS Department on any additional evaluation requirements placed upon the Program by the Trust, such SACERS administration and scoring, and other unforeseeable data gathering and evaluation.

All persons subcontracted by the Evaluation Consultant who will have direct contact with children under the age of eighteen will have satisfactory background checks through a screening agency as required by Florida Statutes sections 984.01(2)(a), 985.01(2)(a), and 39.001.
