NOW, THEREFORE, in consideration of the promises and covenants contained herein, the parties agree:

RESPONSIBILITIES OF CITY:

- 1.1. **Permits and Approvals:** The City shall obtain all necessary permits, and utility adjustments; and coordinate the review of construction documents by utilities and permitting agencies. The City shall make all necessary adjustments as required for approval and/or permitting by those agencies. The City shall obtain all necessary permits, and utility adjustments for the Project in accordance with applicable state, federal and local laws and ordinances. The City shall not pay for any permits required by the Miami-Dade County Public Works and Waste Management Department.
- 1.2. **Public Information and Involvement:** The City will implement a Public Involvement Plan (PIP) during the construction of the Project to provide information to property owners, tenants, and area residents, including but not limited to: public meetings, Project documentation and flyers, business signs, directional parking signs, and schedules for major work to be performed in the area. Appropriate investigation of the Project stakeholders shall be used to develop the goals and objectives to implement the PIP. The City shall submit a copy of the PIP to the County Public Works and Waste Management Director for review and concurrence prior to the Notice to Proceed for construction.

Projects that exceed \$1,000,000 in construction costs shall comply with the process and guidelines for the preparation and implementation of PIPs as established by Implementing Order 10-13.

- 1.3. **Publicity**: By the acceptance of these funds, the City agrees that the Project elements funded by this Agreement shall recognize and adequately reference the County as a funding source. The City shall ensure that all publicity, public relations, advertisements and signs recognizes and references the County for the support of all contracted activities. This is to include, but is not limited to, all posted signs, pamphlets, wall plaques, cornerstones, dedications, notices, flyers, brochures, news releases, media packages, promotions, and stationery. The use of the official County logo is permissible for the publicity purposes stated herein. The City shall submit sample or mock up of such publicity or materials to the County for review and approval. The City shall ensure that all media representatives, when inquiring about the activities funded by this Agreement, are informed that the County is its funding source.
- 1.4. **Accounting**: The City shall at all times maintain separate accounting for the costs of the Project so those costs may be independently verified and audited by the County, at the request and cost of the County. The City agrees to permit the County auditors to inspect the books, records and accounts of the Project for three (3) years after completion of the Project. These records shall be made available to the County for inspection within five (5) business days upon written receipt of a written request from the County.
- 1.5. **Construction**: The City shall procure the services of a licensed contractor holding an engineering contractor's license to construct the Project. The City may award the contract through any available lawful means, in accordance with Section 255.20, Florida Statutes, which in the City's discretion, affords

the most competitive price for construction of the Project and which may include, but is not limited to, bid solicitation, request for proposals, the award of a change order on existing City contract(s), or the extension of unit-prices provided in connection with prior competitive bid awards. Notwithstanding any provision to the contrary, the City shall comply with all applicable County contract compliance and oversight measures relating to the expenditure of County funds, in accordance with Section 6 of this Agreement. Prior to the advertisement to solicit a licensed contractor to construct the Project, the City shall contact the County's Public Works and Waste Management Contracts and Specifications Section to ensure this compliance.

The construction contract shall also contain a requirement that the contractor(s) provide a payment and performance bond at least in the amount and form required by state law naming the County and City as joint obligees or joint contracting public entities. The construction contract shall contain a contingency amount to address unforeseen conditions and owner required changes which shall not exceed five percent (5%) of the base amount of the contract, unless otherwise approved by designated representatives of the County and City. The commitment for the expenditures of any contingency funds shall not be made by the City without the prior written approval of the County Public Works and Waste Management Director. The County shall respond, in writing, within thirty (30) business days of receiving written requests from the City to approve the commitment of contingency funds.

Subsequent to the evaluation of bids or proposals by the City and the City's determination of the most advantageous bid or proposal, the City shall provide said evaluation to the County Public Works and Waste Management Director for review and approval. Final commitment of County funds for the Project shall occur upon approval of the contract award recommendation by the County Public Works and Waste Management Director. The County agrees that the selection, retention and discharge of such contractor shall be the responsibility of the City.

1.6. Claims and Change Orders: The City shall notify the County Public Works and Waste Management Director in writing when claims or change orders arise. The City shall also invite the County to participate in negotiations of these claims and change orders. The County shall review and make a determination or approval of all change orders or supplemental agreements, permits, modifications of plans, or other requests for approvals submitted by the City.

1.7. Construction Administration and Inspection: The City shall exercise all responsibilities of the owner under the construction contract, including construction administration and inspections. The City may delegate this function to an authorized agent or Construction Engineering Inspection consultant. The County's inspector shall have an oversight role in the routine daily inspections. In the case of a disagreement over the interpretation of the plans, the County Public Works and Waste Management Director or their designee shall have final authority subsequent to an independent final

inspection by the County. The City's designated representative and the County's designated representative shall jointly perform the inspection of the Project which immediately precedes substantial completion. The City shall certify upon completion that the Project has been constructed pursuant to the design plans, specifications and approved change orders. Final payment to the City and obligation of maintenance responsibility to the parties shall be subject to the final acceptance of the Project by the County Public Works and Waste Management Director or their designee.

1.8. **Maintenance**: The City shall be solely responsible for maintenance upon construction completion of the Project.

1.9. **Coordination with Miami-Dade County Public Schools**: Various schools have been identified as being in close proximity to the roadway construction project. Due to potential safety, operational and bus transportation impacts, the City shall coordinate with Miami-Dade County Public Schools staff to implement maintenance of traffic measures.

2. **RESPONSIBILITIES OF COUNTY**:

2.1. **Funding Amount, Reimbursement of Project Costs**: The County agrees to provide funds up to \$5,444,920.43 (this amount includes five percent (5%) contingency) for eligible costs, as defined herein, incurred by the City for the construction of the Project. The County shall disburse to the City funds for the Project in the manner set forth in Section 4. The County shall incur no liability for any costs in excess of said funding amount unless there has been a duly authorized increase approved by the Board of County Commissioners.

The City shall not be obligated to commence work should the bid amount exceed the funding provided by the County. If the bid amount exceeds the funding amount, the City reserves its rights to reject all bids and re-bid the Project.

2.2. County Payments of Project Costs: The County funds provided for eligible costs as defined herein, incurred for the construction of the Project are specified below:

<u>Funding Amount</u>	<u>Funding Source</u>	<u>County Fiscal Year of Commitment</u>

The parties recognize that adjustments to the above-referenced cost, may be required in the future, and that at the option of the parties, amendments may be entered into to revise the funds available for the Project. Provided that there is no increase in the amount of County funds required as stated in Section 2.1, or of City funding amounts approved for the Project, amendments may be executed by the City Mayor and the County Mayor or County Mayor's designee without the need for approval by the City Council and County Commission. Otherwise, further funding commitments shall be subject to the approvals of the parties' respective governing boards.

3. ELIGIBLE COSTS: The parties agree that only the below identified costs that may be incurred by the City that are directly related to the Project are eligible for

reimbursement, provided adequate documentation accompanies the reimbursement request in the form of approved invoices, verified payment requests, documented journal entries, and/or check vouchers. For purposes of this Agreement, eligible costs are further defined as those pertaining to the construction of Project elements that are the standard items normally provided for by the County in County road improvement projects, and not the enhancement of standard items, or the incorporation of items which are in addition to those standard items. The County shall not be assumed to be liable to provide reimbursement for the construction or maintenance of such items that do not conform to this section of the Agreement. If enhancements to standard items are constructed in this Project, the City may request County reimbursement only to a maximum amount corresponding to that which would be expended in providing the normal standard version of that item for a project of the same scope. The parties further agree that eligible costs will not include fees for construction management, construction inspections, and project management.
