Dear Friends,

As the year progresses, the City of Hialeah continues to support our youth by encouraging them to follow their dreams, and be proud of their community. It gives me great joy to continue to bring our community together.

offers as sustainable builders of better societies. Female students from all Hialeah area high schools participated.

Engineering Day for Girls: On March 22, 2010 Mayor Robaina, the City Council, and CDM Engineering Company united to bring Engineering Day for Girls back to the City of Hialeah. This daylong event served to encourage high school female students to become academically interested in Engineering and the Sciences. The day was full of presentations designed to introduce the students to Engineering as a career and the rewarding lifestyles it

Egg-Stravaganza: On April 3, 2010 Mayor Julio Robaina and the City Council hosted the annual Egg-Stravaganza at Goodlet Park. Hialeah hosted one of the largest Easter egg hunts in South Florida with over 50,000 eggs! The event included an afternoon of live entertainment featuring young talented artists from Hialeah schools, dance academies and our very own talented youths from Goodlet Theater.

planted trees at the Hialeah Middle School Sports Complex, increasing "green" areas throughout the city while raising eco-awareness among students and citizens.

TREEmendous Day: The City of Hialeah, in conjunction with Miami-Dade College, continued its ambitious series of projects aimed at restoring the natural canopied areas that historically covered vast regions of our city with its 3rd annual TREEmendous Day in Hialeah. On April 17, 2010 Mayor Julio Robaina and the City of Hialeah in conjunction with dozens of students from Miami Dade College

Mayor's Gala: On April 23, 2010 the City of Hialeah celebrated the 4th Annual Mayor's Gala at the Hialeah Race Track. This event helped join the ranks of T.V. Stars, elected officials and local business leaders in support of this noble cause. The event was aimed at raising funds for La Liga Contra el Cancer and the American Cancer Society in their efforts to find a cure for this disease. Despite these hard economic times, thanks to the charitable contributions of our partners, we were able to greatly assist both organizations in their continued efforts, as well as those affected by this disease.

Relay for Life: Relay For Life is the American Cancer Society's signature activity, and Hialeah always sets the example for South Florida. It offers everyone in our community an opportunity to participate in the fight against cancer. Dozens of teams camped out at Goodlet Park on April 24, 2010 for Hialeah's Relay for Life event. Each team had a representative on the track at all times during the event to represent support for victims and their families. Relay For Life brings people together to: • **Celebrate** • **Remember** • **Fight Back**.
