PURPOSE AND REGULATIONS

- A. The purpose of this MOU is to maintain cooperative and collaborative relationships with partner agencies within the region that will increase capabilities in identifying and responding to Radiological and Nuclear ("R/N") threats. These efforts will require close collaboration, support and partnerships from all participants that ultimately will enhance the STC Program to the benefit of every organization/agency within the region.
- B. This MOU will be utilized by the City of Miami in collaboration with regional partners to reduce the risk of a successful deployment of a R/N weapon of mass destruction or the movement of materials into a major metropolitan area such as South Florida. Considering the region's high-risk, it is critical and necessary to implement an expansive and multi-jurisdictional ability to discover and locate R/N threats, communicate information related to these threats and to develop a coordinated response with all principal partners.
- C. This MOU delineates the transfer of federal STC Program funded equipment from the Sponsoring Agency to the Participating agency.
- D. This MOU stipulates the Participating Agency's responsibilities for said equipment as per the Sponsoring Agency's and the STC Program's guidelines.
- E. This MOU describes the intent and sole purpose of equipment as used in coordination by the Participating Agency for the participation, use, and availability of "Regional" equipment. "Regional" equipment, for the purposes of this Program and it's participants includes, but is not limited to, equipment or training that shall benefit and be made available to STC participants as part of the collaboration of South Florida local and state first responder agencies in working effectively and efficiently together to prepare for, respond to, and reduce the risk of a successful deployment of a R/N terrorist weapon against a major metropolitan area in the United States by establishing sustainable capability within Global Nuclear Detection Architecture ("GNDA") partner agencies to detect, analyze, and report R/N materials out of regulatory control within their jurisdictions.
- F. The Parties agree to immediately notify and share security information with each other related to deployment and operation of equipment, goods and services provided pursuant to this MOU.

- G. Through this federal assistance, City of Hialeah will select various goods or services to be submitted for approval, first through the City of Miami STC Program review process and then ultimately through this MOU.
- H. Utilizing reimbursement from the STC Program, the City of Miami or its STC partners will procure selected goods or services, including, but not limited to, the purchase of R/N detection devices; the purchase of other equipment as requested by the Agencies and approved by this Cooperative Agreement for the purposes of this program, such as Personal Radiation Detectors (PRD's), Radioisotope Identification Devices (RIID's), Backpack-based Radiation Detectors or mobile R/N detection devices incorporated onto vehicles as an interdiction platform; this also encompasses items that require either advance funds for prepaying the vendor or the Agency or direct reimbursement to either the vendor or the Agency after purchase; the reimbursement of approved overtime incurred for purposes of training and exercise planning and execution; other items or equipment as described for each federal fiscal year allocation under the STC Initiative.
- I. Both DHS/DNDO and the City of Miami, as Sponsoring Agency, require that the process for purchases by the City of Miami must conform to the current Procurement Policy Rules of the City of Miami. Purchases made by the City of Hialeah must conform to City of Hialeah current Procurement Policy Rules that remain in compliance with 2 CFR 200.
- J. The City of Miami will arrange with City of Hialeah for employees of City of Hialeah Police Department to receive training about the use of the goods and equipment supplied to City of Hialeah pursuant to this MOU. The training will take place at a location and on a schedule to be agreed upon by the parties with due consideration for turnover of personnel and the like. The City of Hialeah Police Department shall not distribute or deliver equipment to other agencies unless they agree not to deploy such equipment without proper training.
- K. Utilizing reimbursement from the STC Program, training hours will be properly tracked. City of Hialeah Police Department will be required to create a budget sheet and provide to the City of Miami or its contractor(s) pursuant to the terms of the MOU. City of Hialeah Police Department agrees to the following:

 - b. the overtime cost structure for each rank;
 - c. the training hours required; and
 - d. the computed total cost, not to exceed City of Hialeah Police Department allocation as identified by the City of Miami.
